## Subsets - I

$\{1, 2, 3\}$   $n=3$

Base case : If  $i = n \rightarrow \text{Return}$

// Subsets -2

Addn Cond'n : check for if  $\underline{\text{num}[i] == \text{num}[i+1]}$   $\Rightarrow \text{index++}$   
Use that index in as  $i$  in  
exclude case.
